

COLLINS NEWS

The General Data Protection Regulation (GDPR) comes into force on 25 May 2018 throughout the European Union. To provide assurance regarding Access UK's readiness for GDPR, we have released our GDPR and Information Security Portal, available to clients [here](#).

The portal contains a comprehensive list of documents you can read and download. If you are not already registered, you will be prompted to do that when you click on the portal link above. There may be a slight delay between application and registration.

To make your compliance with the GDPR more straightforward, we are implementing a change to our terms and conditions. The GDPR provides that you are the data controller of the data we hold on your behalf, and we are the data processor. The GDPR places you under an obligation to have a data processing agreement with us covering certain prescribed requirements.

We have prepared a [GDPR Addendum](#) which will incorporate all the GDPR required terms into your agreement. This addendum is included in the schedule and will be deemed to apply to your agreement if you continue to use our services from 25 May 2018.

If you have any GDPR-related queries that aren't addressed, please contact Information.Security@theaccessgroup.com

Thanks
Team Collins x
